

The corresponding ages for students per grade in the admission process will be the following:

The ages marked with an asterisk ( \* ) must be assigned in or before the first day of the school year that the student is applying to. Students applying to other levels will be promoted to the level that closely relates to the child's age, taking into account the school credits and academical history.

Note: Children that enroll in a school semester with a different academic calendar of February to December must extend a semester in the grade that they are or are finishing recently.

There will be a range of transfer for children in international calendars so they can enter the grade level that corresponds to them before finishing the first 25% school year in session.
